

## Importance of Philanthropy

# Why is a piece of your cookie missing?

Imagine if part of your student experience or education was missing. The missing piece of your cookie represents the impact private support makes at the University of Utah.

Only 59% of a student's tuition is covered by tuition and state support.

This means the other 41% has to come from other sources- including gifts from alumni. This past year, 20,279 alumni gave back to the U. Their support provides scholarships, support student programming, and enhances our academic experiences through research and technology. We thank our alumni and private donors for the impact they have on our campus.
