**FAIRLEIGH  
DICKINSON  
UNIVERSITY**

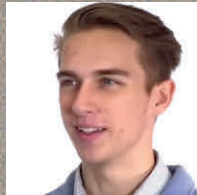

Fundamental to all **higher education** is the idea that, using critical thinking and careful analysis, challenges can be overcome and solutions can be imagined. This year the global pandemic that has forced a complete reimagining of virtually every aspect of modern life has also wreaked havoc on our University and created hardship – financial, logistical, emotional – for so many of our students. **But the alumni, friends, and supporters of FDU have been steadfast in their commitment to and support of this great University.** Together we will adapt and excel.
