I am currently studying to become a board-certified behavior analyst in Temple's College of Education and Human Development. I work one on one with children with autism, and when my hours were cut to 15 a week due to the pandemic lockdowns this spring, I wasn't sure how I was going to make ends meet.

My job assisted in paying for both school and living expenses, and I was faced with the prospect of falling behind academically or worse, losing my apartment. The emergency aid I received was only a few hundred dollars, but it was exactly the help I needed to move forward with my studies and career."

-Kylie Brofman, EDU '23

At Temple, our priority is to ensure every Owl is safe and has access to the tools needed for success.

EMERGENCY AID FOR ACUTE NEED

When COVID-19 became a part of our lives in spring 2020, the university was put to the test. We made hard decisions, and most students returned home to continue their studies online. The pandemic not only disrupted the lives of Temple students on an academic level but a personal one as well.

Students like Kylie had their hours reduced or lost their jobs altogether in the space of weeks, creating a situation where some could no longer provide for basic needs like groceries, medication and reliable internet access. Even today, students continue to apply for emergency aid, almost six months since their lives were turned upside down.

The Student Emergency Aid Fund is designed to mitigate acute financial hardship and is in large part made possible by donations from members of our Temple family. Make a recurring or one time donation to the Student Emergency Aid Fund and ensure that every Owl can pursue excellence without financial worry—an invaluable gift under any circumstance.
