It's #PacificGives!

Dear Mr.

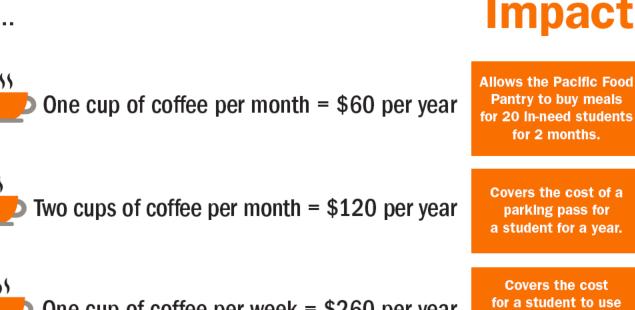

We here at Pacific want to thank you for your previous gift of \$1 and tell you about another way you can make an impact.

Pacific Gives, our annual day of giving, starts on the 24th of March! We ask that you show your Pacific pride and participate early this Pacific Gives by making a gift of any size and have it count towards our goal of 500 donors. It's so easy to make a positive impact in a student's life; here's how!

Did you know... the average person spends around \$25 per week on coffee? That's around \$1,300 each year!

But wait... Did you also know a gift of \$5 per month to any area of the University can make a life changing impact on students and the entire campus?

It's true...

One cup of coffee per week = \$260 per year

Two cups of coffee per week = \$520 per year communities to provide legal or clinical services.

Sends a McGeorge or **Dugoni student** to underserved

the Wellness Center for a semester.

You get the picture! Not a coffee person? Think of another similar expense in your life and watch how a small sacrifice can make a big difference. So please consider giving early this Pacific Gives and help us make this a huge success!
