“The teachers have this intrinsic trust for students to do a great job, which is the first step in any strong relationship. When I step out of Athenian, I feel like the possibilities are endless.”

- Class of 2021 Graduate

Dear {Informal Salutation}:

Athenian teachers have brought out the best in each of our four children. Our eldest, Evan '19, is now in college and the confidence and independence he developed while at Athenian continues to guide him. Evan is embracing the many possibilities of life after Athenian thanks to the foundation provided by his Athenian teachers.

Athenian's unique mission helps attract the kind of teachers that make this school so special and philanthropy helps keep them here by providing critical funds for salaries, professional development and the school's many unique programs. In short, tuition does not cover the full cost of an Athenian education. Support from parents, alumni, and our broader community helps make up the difference.

Will you join our family in making a gift to the school this year? Together, all gifts make an impact and demonstrate our collective commitment to Athenian, the teachers, and the strong foundation the school provides for our children's futures.

We hope that you will make Athenian a priority in your philanthropy.

In gratitude,

Phil Peña and Tony Rios

Parents' Annual Fund Chairs and parents of Evan '19, Dylan '22, Alexa '23, and Jordan '24

P.S. March to spring break! A donor has stepped forward to encourage new families to join in the community-wide effort to support the school through the Athenian Annual Fund. The first 25 gifts we receive will be matched. Double your impact today and support our dedicated faculty!
