

THANK YOU

FOR YOUR SPIRIT OF VITA ABUNDANTIOR!

YOUR STORY IS

THEIR STORY

Remember the first time you saw **Main Hall** on move-in day?

First day on campus

Favorite class

That one professor's class that changed everything **for you?**

Commencement

The bittersweet feeling of commencement in **The Dell?**

Shae Starks '22

Shae Starks '22, a chemistry major and environmental studies minor, investigated the impact of heat on communities during Randolph's 2021 Summer Research Program and as part of the Virginia Heat Watch program which is sponsored by the Virginia Foundation for Independent Colleges:

"I've talked to professors about maybe being an environmental urban planner, where I can focus on creating more green spaces and how we can be more efficient while using less energy."

Help us write more Randolph student stories like these.
