Dear John,

What a difference a day makes! April 7, 2020 – mark it on your calendar – is UTHealth Giving Day. It is a day to come together to advance life-changing health care research, education, and patient care.

Do you want to change a life? For the grandmother who just found out she has Parkinson's disease, or the soon-to-be college graduate with depression, or the mother who faces heart disease – UTHealth is there, and you can be too.

How about the aspiring nurse, dentist, physician, or researcher? They come to UTHealth for a world-class education, and **you** can inspire this next generation of health care providers.

Last year, Giving Day expanded research at UTHealth to improve the health of our communities and provided students with scholarship funds to ease their financial burdens, allowing them to focus on their studies. We were able to honor health care providers for their impact and dedication and provide white coats for incoming medical students as they begin their journeys in health care.

Will you join me in making a difference this year? **Make your gift today to be one of the first supporters for Giving Day 2020 – I've made mine!** You can select any area of UTHealth to support, and every gift makes a difference.

Thank you for being a part of the UTHealth family. The possibilities are endless when #UTHealthGives together.

My warmest regards,

Brigitte M. Grant, MBA
