

Dear {{Recipient.FirstName}},

I'm writing today to ask for your help with a pressing problem.

MassArt students are feeling the impact of the pandemic. **Many students poised to graduate in May are struggling because they cannot pay their final tuition bills—some as small as \$500 or \$1,000.**

We are also hearing from prospective students who wish they could come to MassArt, but are devastated by the economic impact of the pandemic. They may be forced to give up on their dreams of attending an art and design college.

The good news is that you can help!

The more funding you can offer to students in need, the more of them can graduate from MassArt, or come to MassArt and reach their full potential.

Your \$88 gift secures one week of one class for one determined MassArt student.

May I count on you to provide 1 week, 2 weeks, or even 3 weeks of class for a MassArt student? Every week matters and brings a hardworking MassArt student one step closer to earning their degree.

Your gift will help a student through scholarship support and funding for all of our world-class curriculum, and will **ensure that a talented student can pursue their dreams, regardless of their financial situation!**

So please, support a MassArt student's future today!

HELP A MASSART STUDENT

Sincerely,

Marjorie

Marjorie O'Malley

*Vice President for Advancement
Massachusetts College of Art and Design*

*Executive Director
MassArt Foundation*

P.S. Please send your special gift to help a MassArt student thrive this Spring!
